SUMMARY

Aspiring Cybersecurity professional with a strong foundation in network security, vulnerability assessment, and penetration testing. Experienced in using tools such as Kali Linux, Burp Suite, and Metasploit to identify security vulnerabilities and analyze potential threats. Skilled in working with virtual machine environments and applying security concepts to protect systems and networks.

EDUCATION:

Academic Qualification:

SSC – 65.40% (2019)

HSC – 80.50% (2021)

Bachelor of Engineering (BE.IT) from University of Mumbai (2025)

WORK EXPERIENCE:

Mindful Automation — Freelance | 6 Months

Robotic Process Automation

Location: Mysore

- Analyzed manual business processes and supported automation workflows to improve efficiency.
- Worked with structured data and process logs to understand patterns and optimize automation tasks.
- Assisted in training automation processes and monitoring workflow performance.

Accenture – Full Time | 6 Month

Trust and Safety Associate

Location : Navi Mumbai

- Reviewed large volumes of platform data and content to ensure compliance with company policies.
- Analyzed user activity patterns and flagged suspicious or policy-violating behavior.
- Maintained accuracy while handling high-volume data review tasks.

TECHNICAL SKILLS:

Security Tools

- Kali Linux
- Burp Suite
- Metasploit

Networking & Security

- Cisco Network Filtering
- Network Security Basics
- Vulnerability Assessment

Operating Systems

- Linux
- Windows

Virtualization

- Virtual Machines (VMware / VirtualBox)

Programming

- Python (Basic for security scripting)
- Linux

PROJECTS:

HomeConnect

- Developed a dynamic property listing website for rentals and sales.
- Designed an interactive, mobile-friendly UI using **HTML**, **CSS**, and **JavaScript**.
- Enabled users to post property images, details, and contact info easily.

Face Recognition Attendance System

- Designed an automated Face Recognition Attendance System using Python, MySQL, and OpenCV.
- Automated real-time face detection for attendance recording and stored logs securely.
- Generated detailed attendance reports in CSV format, enhancing efficiency and accuracy.

CERTIFICATES:

Cyber Shikhaa - (Microsoft Cybersecurity) Certification

- Conducted penetration tests to identify and exploit vulnerabilities in network infrastructure, web applications.
- Prepared detailed reports with findings and remediation recommendations to enhance overall system security posture.

GenAI Powered Data Analytics Job Simulation — TATA (Forage)

- Gained hands-on experience in exploratory data analysis, AI-based risk profiling, and delinquency prediction.
- Completed practical tasks in AI-driven business reporting, data storytelling, and collections strategy implementation.

SOFT SKILLS:

- Good communication
- Problem Solving
- Adaptability

Personal Information

- Date of Birth: 04-08-2003
- Age: 22 Years Old
- Language Known: Fluent English, Marathi and Hindi
